Robert Heinecken: Object Matter
Tuesday, June 3rd, 5:15 – 6:30 PM
MoMA, 11 W 53rd Street

Robert Heinecken was a groundbreaking “paraphotographer” who pushed the boundaries between mediums and between high and popular culture. Using found images, ranging from *Time* photo essays to pornography, Heinecken explored the manufacture of daily life by mass media and the relationship between the original and the copy.

Join us for a private after-hours tour of his first posthumous retrospective, *Robert Heinecken: Object Matter*, which gathers over 150 works from throughout his remarkable career, many of them never-before seen in New York.
