 [F1000 Research](#)

In July this year, Faculty of 1000 launched [F1000Research](#), a completely original open access publishing program for life scientists.

We invite you to submit your work to [F1000Research](#) and remind you that you can publish with us completely FREE until December 31, 2012.

F1000RESEARCH
IMMEDIATE OPEN ACCESS PUBLICATION FOLLOWED BY OPEN PEER REVIEW

Still only in beta release (until January 2013), [F1000Research](#) has already set new standards for speed, openness, and constructive peer review (see a [brief summary of this model](#), together with our prestigious [Advisory Panel](#) and [Editorial Board](#)).

F1000Research offers:

- Immediate publication (within one week)
- Completely transparent peer review, post publication
- Full data deposition and sharing
- Acceptance of all scientifically sound articles, including single findings, case reports, protocols, null/negative results etc.

Here's what some of our authors have said about [F1000Research](#):

"... the results have exceeded my expectations. We have had several scientists in academia and biotech contact us regarding reagents or possible collaborations. Certainly, people are noticing [F1000Research](#)!"

*Lawrence Kane, University of Pittsburgh, PA, USA
(F1000 Faculty Member)*

"The novel [F1000Research](#) publishing approach is very good and goes a long way in enabling the publishing of articles, especially those with extensive data that can be used by others, whilst reducing greatly what is now widely appreciated as de facto delays and obstructions in the classical use of anonymous referees."

*Alan Schechter, NIH, Bethesda, MD, USA
(F1000 International Advisory Board Member)*

Read our [author guidelines](#) to find out more and then e-mail your article to [REDACTED].

Best wishes,
Rebecca Lawrence
Publisher, *F1000Research*
