Jeffrey

Monday March 17 we will be measuring the elite sprinters in Kingston til Wednesday, early morning at the National Stadium since they are training for international competition this summer, afternoons at U Tech, basically a large football field

staying at the Knutsford Court Hotel with three scientists and two lovely German graduate students (see right an center in attached)

my cell in Jamaica is [REDACTED]

if i don't see you, i will give a full report—a German TV station may send down a crew and help support follow-up work on German sprinters which would be nice

BTW here is a piece from Bob Marley that my son found—i love the last line—gives us a little dignity

all best

bob
