## U.S. and International PGP Conferences, September 2015!

Dear Jeffrey Epstein,

You are receiving this email because you are an enrolled participant of the Harvard Personal Genome Project. Next month, PGP Harvard will hold its annual U.S. conference (**MindEx 2015**) and labs events (**PG-Palooza**) in Cambridge, MA. The conference will take place on Saturday, September 12 at Harvard University's famed Sanders Theatre. PG-Palooza labs will be held on Sunday, September 13 at the Cambridge Innovation Center. Thanks to the generosity of our sponsors, all PGP participants will be admitted to both MindEx and PG-Palooza for whatever they want to pay (instructions below)!

In years past, the U.S. PGP was featured at the GET Conference. This year, the [GET Conference](#) is going international. It will take place in Vienna (Sept 17-19, <http://www.getconference.org/>) and will feature Genom Austria, and other members of the growing international PGP consortium.

For this year's U.S. conference, the Harvard PGP is working together with the Mind First Foundation. There will be the established PGP focus on open source genomics and citizen participatory science, plus additional emphasis on mind and brain, cognition and behavior.

Now, for registration and the "pay what you want" price of admission. *All* PGP Participants are welcome to register for MindEx and PG-Palooza, paying only what they want. You're welcome to attend for as little as 1¢ (plus a minimum fee of 99¢ and up), or donate as much as you'd like to help support the Harvard PGP and the Mind First Foundation.

To register as a PGP participant for MindEx, please [click here to visit the MindEx and PG-Palooza page](#) on [personalgenomes.org](http://personalgenomes.org) (you'll need to log in to your account), and click on the "Participate" button at the bottom of the page. Or go to the

appropriate [EventBrite page](#) ([REDACTED]), click "Enter promotional code," and enter the promotional code that will be sent to you via email. You'll need to register separately for PG-Palooza, which is open only for those enrolled in the PGP; therefore, the flexible, donation-based [EventBrite registration for PG-Palooza](#) is already open ([https://\[REDACTED\]](https://[REDACTED])).

### **More about MindEx and PG-Palooza**

Conference speakers will include PGP founder and Harvard Professor Dr. George Church, Dr. Ron Kessler (Harvard Medical School), Dr. Martine Rothblatt (United Therapeutics), Dr. Ed Boyden (MIT Synthetic Neurobiology Group), Dr. Richard Wrangham (Harvard), Dr. Madeleine Price Ball (PGP Harvard and Open Humans Project), Dr. Sasha Wait Zaranek (PGP Harvard and Curoverse), Dr. Jordan Smoller (Broad Institute, Harvard Medical, Massachusetts General Hospital), best-selling psychology author David McRaney, gut microbiome expert Justine Debelius, and more. PG-Palooza will feature presentations and collections of specimens and data by the Harvard PGP, American Gut, uBiome, LifeNaut, MindModeling@Home, H-Scan, [REDACTED], and more!

For additional details about the conference, labs, speakers, venues, hotels, directions and maps, visit the [MindEx conference pages](#) on the Mind First Foundation website (<http://mindfirstfoundation.org/mindex2015/>).

We hope to see you there!
