## Just Released: Milken Institute Review

In this issue, Claudia Goldin explains why the gender gap in pay persists in spite of decisive gains in women's skills and experience. Tomas Philipson proposes two new sorts of financial derivatives to manage risk and increase capital for drug development. Frank Rose turns a gimlet eye on the "attention economy"—and, in particular, on how efforts to measure the impact of Internet content are undermining the medium. [More »](#)

## Read about 21st Century Cures

### U.S. House Votes YES on 21st Century Cures to Improve Odds for Patients

After an extraordinarily inclusive 18-month legislative process, the 21st Century Cures Act overwhelmingly passed in the U.S. House of Representatives. The bill represents the historic coming together of the biomedical research ecosystem and the federal government — across sectors, diseases and political parties — to accelerate the pace of progress for patients.
