---

both new phone options phones have speed dial

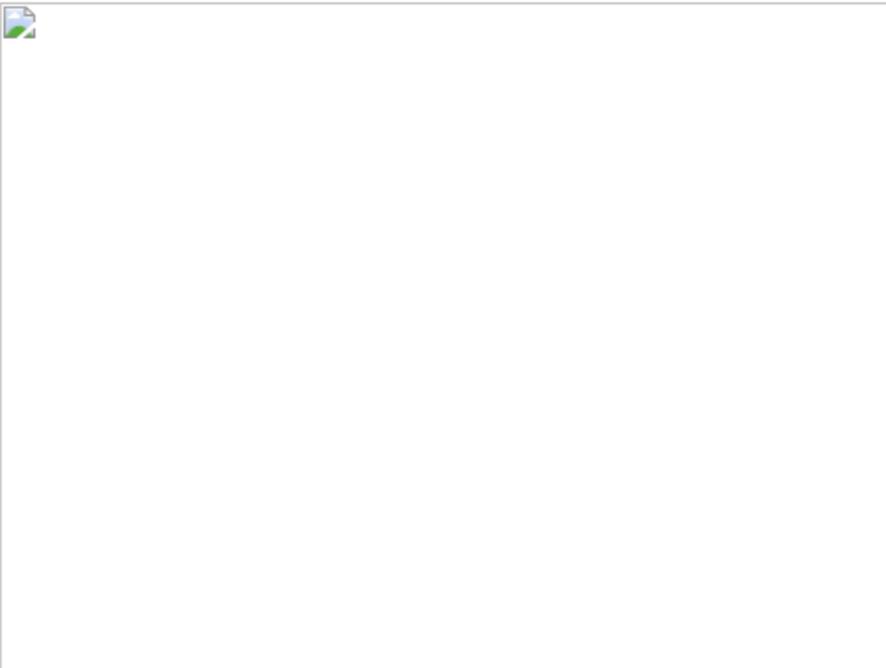

1) KX-NT560 - cost 490 per phone vs 324 original order per phone cost (speed dial buttons are visible on side)  
additional cost 166 x 40 phones = 6,640

2) KX-NT400 - cost 800 per phone vs 324 original order per phone cost (speed dial buttons are accessed through touch screen)  
additional cost 476 x 40 phones = 19,040

below is picture of phone from original order:

Please advise option 1, 2, keep original or none of the above  
Thank you

The new phones from Panasonic are the KX-NT400 and KX-NT560. The NT400 has the touchscreen. They both work with the KSU we already quoted. The price of the original KX-DT546 phone included in the contract were \$324 Each. These new phones are \$830 for the KX-NT400 and \$490 for the KX-NT560. We'd need to add a VOIP card to the system which is \$506.00. We'd need an 8 Port Network switch which is \$419.00. These are basically network phones so the wire in the house has to be near perfect.
