Attachments: Information_for_Eileen_-_Business_hours_and_cost_of_N624N.PDF

Attached was compiled by John Hannan's assistant. Lisa's table shows total hours flown and business hours. Difference between the two is personal use. You will see business hours are broken down between domestic and international. I have asked her to do the same for personal use, will have it tomorrow. As you can see mix of use varies year by year - largely a function of fundraising for Apollo funds. In 2012 Leon spent a good bit of time marketing Fund VIII.

Breakdown of hours flown in the past 3 years is as follows:

	Business/Personal
2011	39/61
2012	64/36
2013	40/60

Is there any addl info you need?
