i spoke with Ben and he was ok with concept - he wants to talk with you tomorrow and will be emailing shortly to set up a time

along the same concept we discussed it appears that attached wire on 1/6/2014 as evidenced on attached bank statement was miscoded and should have been for trading algorithm

accordingly i believe with 60k (attached) + 76k denali + 280+k terrance we have already satisfied our 400k capital improvement requirement

please advise

thank you
