Subject: ZDC-Movie Room Upgrade

Date: Tue, 20 Jan 2015 19:40:26 +0000

Attachments: ZDC-_Movie_Room_Proposal_Rev3.pdf

this morning i briefly reviewed attached quote totaling 59,315.24 with Larry and below is cost differential on 5 largest items when comparing New Mexico vendor vs Miami vendor

New Mexico Vendor	quantity	total cost
Bel Canto Ref 1000m	3	8,985
Bel Canto Ref 500m	4	7,980
McIntosh MX121	1	6,000
McIntosh XCS 200	1	5,600
McIntosh XR 100	2	8,000
Total Cost - NM vendor		36,565

Florida Vendor	quantity	total cost
Bel Canto Ref 1000m	3	8,385
Bel Canto Ref 500m	4	7,180
McIntosh MX121	1	5,000
McIntosh XCS 200	1	5,250
McIntosh XR 100	2	8,250
Total Cost - FL vendor		34,065

Labor hours that Brice mentions in attached are silly as they have 50 hours for design and install

Please advise on how to proceed (is equipment correct and are you ok with out of state vendor / installer)
Thank you

Rich

Attached: Movie Room Proposal Rev3

Breakdown for labor hours:

-8 hours travel time
-4 hours Programming
-50 hours Install/Design/Labor

Misc. Parts Adjustment covers additional parts, accessories, hardware, construction materials such as J-Boxes, trim & wall plates, etc.

Pricing for the additional equipment, specifically the McIntosh Processor and Bel Canto Amplifiers, are as stated on the proposal.

They adjusted cables and discounted speakers, but did not discount Amps or Processor

Larry has not have yet reviewed

any questions please let me know

Brice

Jeffrey

attached: Movie Room Upgrade Proposal with Larry's comments

Please note the following

Rich has not yet Negotiated this proposal.

Proposal Includes:

Klipsch Palladium Series center channel speaker

Remote control has similar functionality to Logitech Remote, with the add bonus it can handle the Sony 4k media player. At present you have a Tablet to control Media player and a Logitech Remote for Apple TV, BD etc.

Larry indicated you were considering running L&R Front Highs

Constellation Audio advised, McIntosh MX121 has 7 channels, if you wish to run L&R Front Highs it would require giving up a back Surround Channel.

Existing Sony Receiver is 9.2 ch, with 4k Resolution pass through and upscaling.

Are we on the right track regarding equipment and should Rich proceed with price Negotiation?

regards

Brice Gordon
