Greetings Sir,

September 4 photos for your review and comments:

MBR Garden - the cleanup is almost completed - the steps will be power-washed and there are a couple more plants to be installed

New palms planted on Main Compound hillside - the 5 dead palms were removed and replaced with new ones

New palms planted in Basket - the 3 dead palms were removed and replaced

Road to Flagpole Pool - the hillside clean up continues - trimming the grass and weeds, removing acacia, burying irrigation piping and exposed electrical as they go along

Road to Five Palms - the 2 dead palms were removed and new ones put in place

Cabana 1 and Cabana 2 Showers - the Grohe shower rough-in components are installed - the fixtures and trims will be installed tomorrow

Gym A/C - the new unit was installed today - Dave will close out the project tomorrow and confirm that everything is working order

Respectfully submitted, Daphne
