Subject: sprinting paper now in press

Date: Mon, 20 Oct 2014 21:24:55 +0000

Importance: Normal

Attachments: TriversPONE_FINAL.docx

dear Gordon and Jeffrey

wonderful news—for me at least—and for the enterprise

PloS ONE has just accepted our sprinting paper (attached)

it should be out within a month and i will send you the pdf and link

i expect it to go international

we shall see

Bernhard, the German, has already bought an electrified mat, from which the athletes can leap as high as possible off of one leg and then the other—symmetry of force applied by legs will thereby be measured—incredible

thanks again for making it possible

bob
