Hi Daphne,

Attached is your proposal.

Please review the information and contact me with any questions or clarifications.

I have a client in St Thomas that could assist you with the install of the building if we can coordinate with his schedule. He's currently involved in the Coral World expansion/transformation, and could supply a team from another endeavor that should be completed within the next 3-4 weeks.

He has installed our buildings in St Thomas and built the following structures;

Cancer center – St Thomas  
Cardiac Center – St Croix  
Crown Bay Marina

All the best,

**Mike Stock**

Greetings Mike,

Our Principal will have his own changes, but this drawing is essentially what we are looking for.

Please price for us when you have a chance, delivered to Tropical Shipping in Medley, Florida (821 Avenue E, Riviera Beach 33404).

Kind regards, Daphne

Greetings Mike,

We will be accessing the building with the equipment and vehicles on one long side only, so all 6 garage doors will be on one long side only.

The 2 short sides will still need one service door each, as you indicated, and 2 on the long side without the garage doors, in the event of an emergency.

Kind regards, Daphne

Hi Daphne,

I completed a preliminary design for the building we discussed yesterday and attached is a rendering.

Please review and let me know if this is what you have in mind.

All the best,

**Mike Stock**
