Subject: Your credit will become inactive in 7 days
Date: Thu, 13 Aug 2015 21:44:52 +0000

This is an automated email, please don't reply.

Hi jeffrey,

Your credit will become inactive in 7 days

You don't seem to have used any of your Skype Credit in a while. It becomes inactive if you haven't used it in 180 days. But don't worry - once it becomes inactive, you can reactivate it whenever you're ready to use it. Simply sign into your account online and follow the option to Reactivate credit.

Your account details:

Skype Name: jeevacation
Balance: \$0.02

How do you keep your balance active?

It's simple. Do any of the following and your Skype Credit balance will be active for another 180 days:

- Call any phone (landline or mobile) - even if the call lasts for just one second.
- Send an SMS message direct from Skype.
- Purchase a personal Skype Number, subscription or voice messaging using your Skype Credit.

Skype

[Lost Password](#) · [Account Settings](#) · [Help](#) · [Terms of Use](#) · [Privacy](#) · [Unsubscribe](#)

No emergency calls with Skype. Skype is not a replacement for your telephone and can't be used for emergency calling

Unsubscribing here will not affect any other newsletters you've requested or any mandatory service communications that are considered part of certain Skype services.

Getting help for Skype

While you cannot reply to this email, you can contact us through our [help section](#) for assistance.

You can also [visit the Skype Community](#).

Protect Your Password

Skype staff will NEVER ask you for your password via email. The only places you are asked for your password are when you sign in to Skype or on our website if you want to buy something or check your account. You will always sign in via a secure connection, and we ask you to ensure that the address in your browser begins exactly like this <https://secure.skype.com> It should also show a little padlock symbol to indicate the secure connection.

Be alert to emails that request account information or urgent action. Be cautious of websites with irregular addresses or those that offer unofficial Skype downloads. Security updates and product upgrades are made available at www.skype.com or using the client's upgrade function.
