We are nearing the end of the year 2014 and need to close out or continue the 6 GHz microwave link project. The FCC requires the link to be constructed within the 1 year period from the issuance of the FCC License or the license is cancelled at no additional cost. If an alternate plan is adopted we should look at updating and closing the account with Advanced Communications for this project. Please let us know if you have made a decision on the project.

Regards,

Richard L. Boltz
