

You will be horribly mangled,

You will never know a moment's peace,

You will meet a handsome stranger who
will molest you.

Don't ever risk riding in an automobile again,
You will be attacked on a dark street,

Strangers are plotting to harm you,

A plane being hoisted may drop on you,

The other sex laughs at your dull lovemaking,
Your closest relatives hate you,

You were unwanted by your parents,

You are the child of two parents,

You are showing signs of Alzheimer's,

Your age shows terribly on your face,

Face work would not help you,

You are considered a joke in your profession,

Animals instinctively hate you,

You will die a pauper,

You have a below normal IQ,

Bad weather will follow you everywhere,

There is a plan afoot to defraud you,
