Is there any way to find real opportunities to make money (for me) in this volatile but bullish economy?

Update --

1. Our friend is now pretty rapidly against admin and says they don't know what they are doing and that the time he spent w Jared and ivanka made him scared for the country and more Worried than ever. I worry what happens if he gets on trumps bad side.
2. His other half is fighting tooth and nail to have me NOT join his Team - not surprising
3. He's thinking of opening a DC office to do some small projects but mostly just keep track of things - man named Geoff lamb (I know him -- he's similar in traits to larry) will run it. Larry would like to place me in DC office away from Seattle to work w Geoff
4. Larry is annoying. Our friend hates conflict and won't act. Not sure what to do. VP of schmeckelville might be a good interim Option blah
