spoke to three of the best. . 1 are they saline or silicon. 2 they said it needs to be smaller an UNDER the muscle. 3 it depends on how elastic your skin is , for final determination. . where did you have it done previously, . ? i didn't know your race . 5 . each said that it can be fixed. with a long period before you knew final result as it depends on how much the natural skin shrinks. .

Skype

Participants: jelena markovic (live:markovic_jelena_1), Self (jeevacation)

It was saline, the implant is a round implant also I'm sure the brand of the implant is german and the procedure is under the muscle already. It was done in Australia by a doctor called dr. Pouw in bondi, Sydney. Sorry for my late reply I was sleeping. Thank you!

What president has time to tweet about things like this. He should have more important things on his plate and he shouldn't dignify himself with these stupid tweets. It should be beneath him but it's not. It's all very disappointing.
