Sir, I've just landed in Washington.
Does anyone know about me at the embassy, or I can just come with the docs. And explain
the situation?

Must be autonomic somewhere

Probably a subtraction be something parasympathetic and something sympathetic

Like basal ganglia intrinsic oscillation minus SA node in heart or something

First need to define. . again like all the other senses. It only works in a narrow band. Auditory visual etc. we don't sense the seed alive - too long. Sounds. Too short. Etc

Time has to be related to something bigger and constant
So it must be a sense related to light
