i have your answers re peril. davos , and the quote from one of the worlds greatest mathematicians. I hope he is a better economist than he is a mathematician . the question re probability of life. shows no understanding of the subject of probablilty but uses the term in its everyman context. I have asked him to write you a full explanation .

Drake equation probability estimation is garbage in garbage out but this not same thing as saying concept of a probability is wrong. Do I think meaningful to talk about prob of trump being re-elected or my getting horizontal w peril which are one shots.

Cannot use the concept of probability with only one example and not a repeated space . Gromov said its a question his children might ask and hopefully only once !

Question of prob that stock market will rise till end of 2019 is meaningless? You have one
strong willed authority with achievements in some other sphere. So what.
