1. To release a new highlight clip each day to steer traffic to YouTube (for monetization) and to encourage people to sign up for patreon paid support.
2. To release a new podcast every 2 weeks (we have 18 in the can) and try and build the paid following.
3. To contact some groups that support public science to see if they will support the podcast. (Sloan foundation, etc). (A thought from yesterday).
4. Some meetings in la to see if perhaps Netflix or another group wants to turn it into tv.
5. To see if this becomes money making through one of these avenues and at the same time plan for a fall trip to do another 10 or so based on people who have agreed (Ian McEwan, stephen fry, woody Allen etc).
6. To continue to push nations geo publisher to sign me to a book contract they are interested in for a book due to come out next July.
7. To plan and prepare two more trips for the foundation
8. To plan a fall event for the foundation.
9. To work with former students and post doc to try and refine the idea in the paper I released last month.
10. To see which of the above seeds sprouts and think about other options as well.

I doubt borrowers get income but not certain. If they did many who struggle w debt service would get a whopping tax bill.

I suspect a balance sheet impact but not a deficit impact. Depends on whether it's framed as a give away or recognition of reality.

You say you want to learn . I repeated many times that "doing "is learning- : reading, watching thinking come AFTER "Doing ". It seems you prefer talking about life rather than living it.
