The house of my friend is a little more than 3000 a month but she has a roommate that is leaving in April and she said I can take her place when she goes away. The airbnb studio is 2000 a month. I don't know how much I will earn if they hire me but I guess around 1200-1500 euros

Krause - I usually try not to opine on relationships . but i thought i needed to share my somewhat vast trove of evidence in very similar circumstances. the wives will either get better or they won't. you being nearby has little positive effect and some negative on her. and mostly neg on you. her system needs to be reset and hopefully it will. but unpredictable. a separation for 6-9 months. will allow her to deal exclusively with her and

though you will feel guilty at first. give you space to think. i can't help pointing out that guilt and hope are religious concepts. and if you are true to your beliefs need to coldly view the cost benefit to you both by you standing by and wishing the broken leg got better
