"Your FCC License is set to expire"

Dear Licensee,

A recent review of the **FCC database** shows that your current FCC license will expire in **approximately 90 days**. The call sign for that license is **WPUX942** and the expiration date is **20120523**. If you fail to update or renew your FCC license, it will expire along with your legal ability to operate your two-way radio system. **Please note** that if your license expires you will be required to file for a new license. This will cost you substantially more time and money than simply renewing your current license **immediately**.

The FCC has recently changed their procedure for renewing licenses. The new 26-page schedule and application form is considerably more complex and time consuming. In addition, the FCC will no longer include renewal applications with reminder notices. Newly imposed **FCC fines may reach \$8,000.00 per day** for unlicensed/ improperly licensed use of a radio system. The FCC will attempt to notify you prior to your expiration date but clearly states in **FCC Docket 90.481** that:

"While we do send renewal notices to licensees, such notices are not required, and we take no responsibility for failure to send or receive such notices. The act of filing a renewal application remains the exclusive responsibility of the licensee."

Universal Licensing Service is your current processor and filed your existing FCC license currently in use. We specialize in the filing of FCC radio licenses. Recently, the FCC renewal form rejection rate has ballooned due to incomplete or conflicting information. We offer you the comfort of knowing that your ability to operate your two-way radios will not be restricted or penalized in any way.

IMPORTANT - Follow these steps to insure a timely filing of your FCC license:

- 1- Review and correct your name and mailing address**
- 2- Update your telephone & fax number, contact name, email address and the License Federal Tax ID#.
(When the licensee is an individual, use the individual's Social Security #)**
- 3- Detach the bottom portion of the letter and mail back in the provided return envelope with a check in the amount of \$95.00 made payable to Universal Licensing Service. If you prefer, you may charge the fees to your American Express, Discover, MasterCard or Visa by calling 1-877-677-3639.**

Please note that time is of the essence. A rapid response is requested to ensure proper filing before your expiration date. Many applications will call for Administrative Updates and/ or License Modifications which require additional licensing time.

Upon receiving and processing your application, one of our processors will forward you the signature page of the FCC renewal form and any additional FCC filing fees will be requested at that time. The FCC filing fees are in addition to the processing fee. Renewals are granted for a 10 year term. Filing this application will satisfy all requirements for your FCC license renewal process.

For questions, updates or information on our multiple call sign discount program, please call toll-free (877) 677-3639 or email support@universallicensing.us.
