This file contains information about things you should know before using this product as well as the latest information, which is not included in Online Help topics.
Be sure to read this file prior to use.

* Use in High Safety Applications

This Product is designed, developed and manufactured as contemplated for general use, including without limitation, general office use, personal use, household use, and ordinary industrial use, but is not designed, developed and manufactured as contemplated for use accompanying fatal risks or dangers that, unless extremely high safety is secured, could lead directly to death, personal injury, severe physical damage or other loss (hereinafter "High Safety Required Use"), including without limitation, nuclear power reaction core control in nuclear atomic facility, airplane automatic aircraft flight control, air traffic control, operation control in mass transport control system, medical instrument for life support system, missile launching control in weapon system.

You shall not use this Product without securing the sufficient safety required for the High Safety Required Use.

In addition, PFU (or other affiliated company) shall not be liable against the Customer and/or any third party for any claims or damages arising in connection with the High Safety Required Use of the Product.

[Table of Contents]

1. System Requirements
2. Installation
3. Uninstallation
4. Notes

1. System Requirements

1) Hardware

- CPU: Intel(R) Pentium 4 1.8 GHz or higher
(Recommended: Intel(R) Core(TM) i5 2.5 GHz or higher, excluding mobile devices)
- Memory: 1 GB or more (Recommended: 4 GB or more)
- Hard disk drive: 5400 rpm or faster (Recommended: 7200 rpm or faster)
*If the CPU or memory does not meet the required specifications, the scanner may not operate.
If the CPU or memory does not meet the recommended specifications, or if USB 1.1 is used, the scanning speed will slow down.
- Disk space: 10 GB or more free disk space
*When scanning, enough disk space is required for saving a file.
- Display resolution: 1024 x 768 pixels or more, and 65536 colors or more
*With 256 colors or less, a scanned image may become corrupted.
- For more information about how to connect to the computer and other requirements, refer to the manual that comes with your scanner.

2) Operating Systems

- Windows(R) XP Home Edition (SP3 or later)
- Windows(R) XP Professional (SP3 or later)
- Windows(R) XP Professional x64 Edition (SP2 or later)
- Windows Vista(R) Home Basic (32/64bit) (SP2 or later)
- Windows Vista(R) Home Premium (32/64bit) (SP2 or later)
- Windows Vista(R) Business (32/64bit) (SP2 or later)
- Windows Vista(R) Enterprise (32/64bit) (SP2 or later)
- Windows Vista(R) Ultimate (32/64bit) (SP2 or later)
- Windows Server(R) 2008 Standard (32/64bit)
- Windows Server(R) 2008 R2 Standard (64bit)
- Windows Server(R) 2012 Standard (64bit)
- Windows(R) 7 Home Premium (32/64bit)
- Windows(R) 7 Professional (32/64bit)
- Windows(R) 7 Enterprise (32/64bit)
- Windows(R) 7 Ultimate (32/64bit)
- Windows(R) 8 (32/64bit)
- Windows(R) 8 Pro (32/64bit)
- Windows(R) 8 Enterprise (32/64bit)

3) Associated Software

Microsoft(R) SharePoint(R)

- Microsoft(R) Office SharePoint(R) Server 2007
- Microsoft(R) SharePoint(R) Server 2010

2. Installation

- * Be sure to log on as a user with Administrator privileges to install the program.
- * When the User Account Control dialog box appears during installation, click the [Continue] button.
- * Be sure to select a local folder as the installation folder.
- * Do not install the program directly under the root folder. If the program is installed directly under the root folder, it may not work properly. Install the program in a folder other than the root folder.
- * Do not use the following characters for the installation folder name. If any of the characters below is used, the program may not work properly.
/ ; : , . * ? " < > |
- * A warning message may appear during the installation of ScandAll PRO if a resident program such as anti-virus software is running.
- * This product requires Microsoft(R) .NET Framework 4.5.
When Microsoft(R) .NET Framework 4.5 is not installed, the installer of this product will install it.
(Microsoft(R) .NET Framework 4 for Windows(R) XP)

3. Uninstallation

* Be sure to log on as a user with Administrator privileges to uninstall the program.

* When the User Account Control dialog box appears during uninstallation, perform one of the following:

- If you are logged on as a user with "administrator" privileges, click the [Continue] button.
- If you are logged on as a user without "administrator" privileges, select a user with "administrator" privileges first, enter the password, and then click the [OK] button.

* Uninstall Microsoft(R) .NET Framework 4.5 or Microsoft(R) .NET Framework 4 after uninstalling this product.

4. Notes

1) About the operating environment

- This software does not guarantee reliable operations if used with Terminal Service Client, Remote Desktop Connection Client, or Thin Client System.
- To use this software on Windows(R) XP, run Windows Update to apply updates and security updates for Microsoft(R) .NET Framework 4.
If they are not applied, this product may not run correctly.

2) About supported drivers

- This software supports fi-series scanners, but users must install supported scanner drivers separately.
 - This software supports PaperStream IP (TWAIN) and PaperStream IP (ISIS), but does not support WIA (Microsoft Windows Image Acquisition).
 - The scanner settings may need to be reconfigured once the scanner driver has been upgraded.
