

Dear Voters:

The Virgin Islands needs its most committed sons and daughters to serve the just interests of our People. We need service leadership - those who will sacrifice their individual interests on the collective altar of public service and place their unique gifts on the pedestal of Territorial development. A quality public education is essential for our people, especially our children, to master the technology, sciences, and skills of a competitive global economy. I am unconditionally committed to every single child acquiring a world class education. I have fought and I will continue to advocate for a major overhaul of our school curriculum, scholar-athlete programs, safe facilities, and well paid, well trained educators--cultivators of human capital! I am determined to be a change agent in St. Croix for the betterment of public education, but I need your support. Please consider me as one of your worthy recipients of public trust, and vote **Nandi Sékou, Esq. #7** for the Board of Education. Your prayers and financial support are also appreciated. Please review my aspirations for our educational system.

I remain committed,

Nandi Sékou
