██████████_Texts_08.12.2018-10.21.2024	2019-08-21 14:43:56				NBOX	"Hey dude Job phone is dying. I asked ██████████ to update you. We spoke with the psych doctor this morning dr Imerl. She describes Epstein as normal with no indication or risk factors that would suggest suicide. She stated that mcc never got to the bottom of the 1st attempt on July 23. She made all proper notifications that Epstein required and needed a cellmate. We are currently at a proffer with ██████████; an inmate in the SHU at MCC. We spoke with AUSA this morning and before we told them we are going to start to peel off they indicated that they probably won't be able to make this the ""case of the century"" and at most they will probably look to charge BOP guard Thomas and Noel for their failure to do the rounds on the night Epstein died. That is anticipated to probably be done after Labor Day if that's what they decide."	null	null	null	null	null
