Child refugees 'sexually abused by Italian men' after being picked up while sleeping homeless in parks: Charities warn that countless child asylum seekers are being abused and exploited by maxwellhill in worldnews

[-] maxwellhill [S] 10 points 3 years ago*

Ermias Haile, a 16-year-old from Eritrea, has been sleeping on a building site with his friends since they arrived on the island after making the treacherous voyage from Libya.

Ermias and friends told Sky News an Italian man had sexually abused them after buying them drinks and offering them shelter.

"He find us in a place like this [park] and he invite us to a bar and he let us drink beer and then he take us to his home and there he give us beer," he said.

"We start drinking and then he start touching us on our body. After we leave the house, he calls us and he gives us money."

Smack-of-pedophilia-so what are the Italian authorities doing about this?

Edit: I stand corrected, wrong term and the age of consent is 14.
