After that, if I wasn't "in" before, I was definitely "in" now, me, Marcus, and Daniel. The three fucking stooges from hell. Daniel had been in the military and I think he had a few screws loose because he always had a temper. He became the go to guy for the really dirty shit. I started working for Mr. Epstein directly after this. He would confide in me sometimes, when he was very high, about how nothing really makes him feel good enough. He told me once that he hasn't felt happy in years. I wish I had had the stones to tell him that this life he is living is only bringing him down. For a brief moment, I felt empathy for this man. I think that, too, was part of his game though. I don't think he has ever had a single genuine feeling in his life outside of sexual gratitude. He never mentioned the journalist to me, it was like it never happened but we both knew that was the reason I was now working directly for him.

Listen, I think I've said about all I care to right now. I'm going to go get a bottle of something before all the stores close. If this thread is still here in a few hours, I'll answer questions and tell some more stories.

This one is quite disturbing compared to the other videos on my channel, but I felt like this was necessary to be shared rather than being buried and forgotten.
