They called them "plays" and "theatre" but from my eyes yeah, I would say the speeches and stuff I saw looked a lot like rituals. The bull's head mask was scary. I mean it was a rubber mask for sure but whoever spoke would wear it all night. After they would come up out of the chamber the masked person would roam the island all night, and it was generally understood that you are to avoid them at all costs. When they wear the mask they're like animals, they just wander around from one carnal satisfaction to the next. Food, sex, sometimes violence, whatever. And they could do whatever they want. If they came to you and told you to suck their dick or whatever, you have to do it. It never happened to me thankfully, but I made sure on those nights to stay out of sight.

This one is quite disturbing compared to the other videos on my channel, but I felt like this was necessary to be shared rather than being buried and forgotten.
