

- In advance of today's call, [REDACTED] reviewed her report from 10/20/2005 search of Epstein's PB residence
- [REDACTED] remembers the following:
  - [REDACTED] was not there as a lead and was just part of the search party
  - Remembers being at the search in JE's house
  - Remembers waiting in the driveway for the SW to be read on video
  - Remembers walking into the kitchen, waiting to be told what to do
  - At first did not recall being in teams for the search, reading the report, [REDACTED] recalls that during points of the search someone else was present
  - Recalls at one point when searching the room by the pool, [REDACTED] was looking at something on a shelf and accidentally knocked a picture of the shelf, which broke
  - Remembers searching the room by the pool and searching the car (remembers the IOU note)
  - Remembers being in or around the houseman's room or apartment at some point during the search. Believes [REDACTED] may have been in there.
  - Remembers a woman with an accent who was present as well
  - [REDACTED] recalls pictures of nude individuals of different ages
  - [REDACTED] recalls painting at the top of the stairs
  - [REDACTED] had been present with [REDACTED] for interviews with some victims, so went to look upstairs, and recalls seeing naked woman (either painting or drawing)
- Everything that [REDACTED] seized is referenced in the report
  - [REDACTED] seized framed pictures of females and/or Epstein, all of the photos that [REDACTED] seized were located on the first floor of the main house on the property
  - [REDACTED] believes she may be able to remember which photos she seized if she is shown the video from the search, which depicts each room
  - Someone was filling out the property receipts, but it wasn't [REDACTED]
  - [REDACTED] has a copy of the property receipts from the search, does not recognize the handwriting on any of those receipts as hers, but recognizes entries regarding framed photos as referencing items she seized. Will send a copy of the property receipts to [REDACTED]
- Other than the search, [REDACTED] went to a couple houses with [REDACTED] and the High School to interview potential victims. [REDACTED] ran those interviews while [REDACTED] was present. One detail [REDACTED] recalls is that all the girls she talked with wore thongs.
- Other than [REDACTED] reports, there are no notes or documents that [REDACTED] authored regarding the JE investigation; didn't take notes during interviews; does not have any communications from any witnesses.
