## For Your Information

The European Central Bank (the "ECB") and other credit institutions introduced "negative interest rates". Negative interest expense may be charged to your account if you have a deposit of foreign currency. The interest will be reported on your Forms 1099 and/or 1042 S. These rates are subject to change in response to market changes, and we may, in the future and based on our normal interest rate setting arrangements, begin to charge negative interest rates on additional foreign currency balances.

## Messages

Although a money market mutual fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in a money market mutual fund. Shares of a money market mutual fund or the balance of a bank deposit product held in your brokerage account may be liquidated upon request with the proceeds credited to your brokerage account. Please see the money market mutual fund's prospectus or the bank deposit product's disclosure document or contact your advisor for additional information. Pursuant to SEC Rule 10b-10(b)(1) confirmations are not sent for purchases into money market mutual funds processed on the sweep platform.

The U.S. will adopt a shortened settlement timeframe beginning with trade date September 5, 2017, for equities, corporate and municipal bonds, and unit investment trusts. Moving from a T+3 to a T+2 settlement cycle will provide faster access to sale proceeds, but it also means that funds will be due on purchase transactions earlier. This may be a good time to consider e-delivery of your account documents-including trade confirmations, account statements and more. Ask your advisor about how you can set up e-delivery.

## Important Information and Disclosures

### Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

### Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

### Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

### Options

Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.

Statement Period: 12/01/2016 - 12/31/2016

## Important Information and Disclosures *(continued)*

### Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

### Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

### Important Arbitration Disclosures

- All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.
- Arbitration awards are generally final and binding; a party's ability to have a court reverse or modify an arbitration award is very limited.
- The ability of the parties to obtain documents, witness statements and other discovery is generally more limited in arbitration than in court proceedings.
- The arbitrators do not have to explain the reason(s) for their award, unless, in an eligible case, a joint request for an explained decision has been submitted by all parties to the panel at least 20 days prior to the first scheduled hearing date.
- The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.
- The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.
- The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

### Important Arbitration Agreement

No person shall bring a putative or certified class action to arbitration, nor seek to enforce any predispute arbitration agreement against any person who has initiated in court a putative class action, who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until; (I) the class certification is denied; (II) the class is decertified; or (III) the client is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.

PERSHING ALSO REGULARLY REVIEWS REPORTS FOR QUALITY OF EXECUTION PURPOSES.

## For Your Information

The European Central Bank (the "ECB") and other credit institutions introduced "negative interest rates". Negative interest expense may be charged to your account if you have a deposit of foreign currency. The interest will be reported on your Forms 1099 and/or 1042 S. These rates are subject to change in response to market changes, and we may, in the future and based on our normal interest rate setting arrangements, begin to charge negative interest rates on additional foreign currency balances.

Shares of a money market mutual fund or the balance of a bank deposit product held in your brokerage account may be liquidated upon request with the proceeds credited to your brokerage account. Please see the money market mutual fund's prospectus or the bank deposit product's disclosure document or contact your advisor for additional information. Pursuant to SEC Rule 10b-10(b)(1) confirmations are not sent for purchases into money market mutual funds processed on the sweep platform.

## Important Information and Disclosures

### Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

### Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

### Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

### Options

Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.

Statement Period: 11/01/2016 - 11/30/2016

## Important Information and Disclosures *(continued)*

### Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

### Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

## Important Information and Disclosures *(continued)*

### Important Arbitration Disclosures

- All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.
- Arbitration awards are generally final and binding; a party's ability to have a court reverse or modify an arbitration award is very limited.
- The ability of the parties to obtain documents, witness statements and other discovery is generally more limited in arbitration than in court proceedings.
- The arbitrators do not have to explain the reason(s) for their award, unless, in an eligible case, a joint request for an explained decision has been submitted by all parties to the panel at least 20 days prior to the first scheduled hearing date.
- The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.
- The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.
- The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

### Important Arbitration Agreement

Any controversy between you and Pershing LLC shall be submitted to arbitration before the Financial Industry Regulatory Authority. No person shall bring a putative or certified class action to arbitration, nor seek to enforce any predispute arbitration agreement against any person who has initiated in court a putative class action, who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until: (I) the class certification is denied; (II) the class is decertified; or (III) the client is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.

## For Your Information

The European Central Bank (the "ECB") and other credit institutions introduced "negative interest rates". Negative interest expense may be charged to your account if you have a deposit of foreign currency. The interest will be reported on your Forms 1099 and/or 1042 S. These rates are subject to change in response to market changes, and we may, in the future and based on our normal interest rate setting arrangements, begin to charge negative interest rates on additional foreign currency balances.

Although a money market mutual fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in a money market mutual fund. Shares of a money market mutual fund or the balance of a bank deposit product held in your brokerage account may be liquidated upon request with the proceeds credited to your brokerage account. Please see the money market mutual fund's prospectus or the bank deposit product's disclosure document or contact your advisor for additional information. Pursuant to SEC Rule 10b-10(b)(1) confirmations are not sent for purchases into money market mutual funds processed on the sweep platform.

## Important Information and Disclosures

### Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

### Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

### Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

### Options

Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.

### Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

### Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

Although a money market mutual fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in a money market mutual fund. Shares of a money market mutual fund or the balance of a bank deposit product held in your brokerage account may be liquidated upon request with the proceeds credited to your brokerage account. Please see the money market mutual fund's prospectus or the bank deposit product's disclosure document or contact your advisor for additional information. Pursuant to SEC Rule 10b-10(b)(1) confirmations are not sent for purchases into money market mutual funds processed on the sweep platform.

## Important Information and Disclosures

### Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

### Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

### Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from

## Important Information and Disclosures

### Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

### Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

### Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

### Options

Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.

**Important Information and Disclosures** *(continued)*

**Proxy Vote**

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

**Foreign Currency Transactions**

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

### Important Arbitration Disclosures

- All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.
- Arbitration awards are generally final and binding; a party's ability to have a court reverse or modify an arbitration award is very limited.
- The ability of the parties to obtain documents, witness statements and other discovery is generally more limited in arbitration than in court proceedings.
- The arbitrators do not have to explain the reason(s) for their award, unless, in an eligible case, a joint request for an explained decision has been submitted by all parties to the panel at least 20 days prior to the first scheduled hearing date.
- The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.
- The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.
- The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

### Important Arbitration Agreement

Any controversy between you and Pershing LLC shall be submitted to arbitration before the Financial Industry Regulatory Authority. No person shall bring a putative or certified class action to arbitration, nor seek to enforce any predispute arbitration agreement against any person who has initiated in court a putative class action, who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until; (I) the class certification is denied; (II) the class is decertified; or (III) the client is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.

## Important Information and Disclosures

### Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

### Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

### Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

### Options

Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.

**Important Information and Disclosures** *(continued)*

**Proxy Vote**

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

**Foreign Currency Transactions**

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

### Important Arbitration Disclosures

- All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.
- Arbitration awards are generally final and binding; a party's ability to have a court reverse or modify an arbitration award is very limited.
- The ability of the parties to obtain documents, witness statements and other discovery is generally more limited in arbitration than in court proceedings.
- The arbitrators do not have to explain the reason(s) for their award, unless, in an eligible case, a joint request for an explained decision has been submitted by all parties to the panel at least 20 days prior to the first scheduled hearing date.
- The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.
- The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.
- The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

### Important Arbitration Agreement

Any controversy between you and Pershing LLC shall be submitted to arbitration before the Financial Industry Regulatory Authority. No person shall bring a putative or certified class action to arbitration, nor seek to enforce any predispute arbitration agreement against any person who has initiated in court a putative class action, who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until; (I) the class certification is denied; (II) the class is decertified; or (III) the client is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.

\* Noncovered under the cost basis rules as defined below.

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered," under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Reporting requirements generally will be phased in over a three-year period, as follows:

- Stock in a corporation acquired on or after January 1, 2011
- Mutual funds and dividend reinvestment plan (DRP) shares acquired on or after January 1, 2012
- Options and any Debt Instruments that provide a simple fixed payment schedule for which a yield to maturity can be easily determined acquired on or after January 1, 2014.

This Schedule may not reflect all cost basis adjustments necessary for tax reporting purposes, especially for noncovered securities. Adjustments to cost basis may have been made for prior income received and subsequently reclassified by the issuer as a return of capital. In addition, corporate action events may require adjustments to your original cost basis. Return of capital information and cost basis information, as it relates to corporate actions, has been obtained from sources we believe to be reliable.

Adjustments to cost basis can be made after year-end, in particular, for return of capital adjustments, but may also include adjustments for corporate action events. Therefore there may be differences in cost basis reflected on your monthly client brokerage statement at year end versus any subsequent reports, including your 1099-B or online displays you may have available to you.

When you report your cost basis on your tax return, it should be verified using all of your own records. In particular, there may be other adjustments which you need to make, but are not required to be made by Pershing as it relates to H.R. 1424. You should consult with your tax advisor in order to properly report your gain or loss for tax purposes. Pershing shall not be responsible for and makes no representations or warranties with respect to the accuracy of any information that you report to the IRS or other taxing authorities, and, accordingly, disclaims any and all liability that may arise with respect to your use and reliance on the information provided herein for such reporting.

Cost Basis on fixed income securities may be adjusted for amortization, accretion, original issue discount adjustments, or principal paydowns. The calculation is based upon the taxpayer election, type of fixed income security, and certain attributes, obtained from sources believed to be reliable. In the event, one or more of these attributes is changed, there may be a temporary incorrect adjusted cost basis reflected until the cost basis system is amended to reflect this change. These calculations will not be performed under certain circumstances, including those involving foreign bonds, bonds sold short or bonds issued with less than one year to maturity. This information is meant as a general guide and you should consult your tax advisor in the preparation of your tax returns.

<sup>13</sup> The cost basis of this security has been provided to us by the delivering firm or transferring agent and Pershing makes no representation as to the accuracy of this information.

Please refer to the Your Account Information Section in your brokerage account statement for your account's existing tax-lot disposition method. The disposition method is the method which you have selected to use in the disposal of each tax lot of the securities held in your account. If you do not select a method, your account will be defaulted to First In, First Out (FIFO). Your account's selected tax lot method will be used to determine the cost basis for calculating gain and/or loss, unless another method was selected at the time of the security disposal, and this may be reported on the IRS Form 1099-B.

### Important Information and Disclosures

#### Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

## Important Information and Disclosures (continued)

### Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

### Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

### Options

Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.

### Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

### Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

This statement may contain credit rating information obtained from Standard & Poor's. Reproducing and distributing any information received from Standard & Poor's is not permitted without prior written authorization from Standard & Poor's. Standard & Poor's does not guarantee the accuracy, completeness, timeliness or availability of any information. - The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.
- The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.
- The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

**Important Arbitration Agreement**

Any controversy between you and Pershing LLC shall be submitted to arbitration before the Financial Industry Regulatory Authority. No person shall bring a putative or certified class action to arbitration, nor seek to enforce any predispute arbitration agreement against any person who has initiated in court a putative class action, who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until; (I) the class certification is denied; (II) the class is decertified; or (III) the client is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.

### For Your Information

The European Central Bank (the "ECB") and other credit institutions introduced "negative interest rates". Negative interest expense may be charged to your account if you have a deposit of foreign currency. The interest will be reported on your Forms 1099 and/or 1042 S. These rates are subject to change in response to market changes, and we may, in the future and based on our normal interest rate setting arrangements, begin to charge negative interest rates on additional foreign currency balances.

Footnotes

\* Noncovered under the cost basis rules as defined below.

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered," under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Statement Period: 04/01/2016 - 04/30/2016

Although a money market mutual fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in a money market mutual fund. Shares of a money market mutual fund or the balance of a bank deposit product held in your brokerage account may be liquidated upon request with the proceeds credited to your brokerage account. Please see the money market mutual fund's prospectus or the bank deposit product's disclosure document or contact your advisor for additional information. Pursuant to SEC Rule 10b-10(b)(1) confirmations are not sent for purchases into money market mutual funds processed on the sweep platform.

be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

**Estimated Annual Figures**

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

**Reinvestment**

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

**Options**

Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.

**Proxy Vote**

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

**Foreign Currency Transactions**

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

### Important Arbitration Disclosures

- All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.
- Arbitration awards are generally final and binding; a party's ability to have a court reverse or modify an arbitration award is very limited.
- The ability of the parties to obtain documents, witness statements and other discovery is generally more limited in arbitration than in court proceedings.
- The arbitrators do not have to explain the reason(s) for their award, unless, in an eligible case, a joint request for an explained decision has been submitted by all parties to the panel at least 20 days prior to the first scheduled hearing date.
- The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.
- The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.
- The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

### Important Arbitration Agreement

Any controversy between you and Pershing LLC shall be submitted to arbitration before the Financial Industry Regulatory Authority. No person shall bring a putative or certified class action to arbitration, nor seek to enforce any predispute arbitration agreement against any person who has initiated in court a putative class action, who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until; (I) the class certification is denied; (II) the class is decertified; or (III) the client is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.

### For Your Information

The European Central Bank (the "ECB") and other credit institutions introduced "negative interest rates". Negative interest expense may be charged to your account if you have a deposit of foreign currency. The interest will be reported on your Forms 1099 and/or 1042 S. These rates are subject to change in response to market changes, and we may, in the future and based on our normal interest rate setting arrangements, begin to charge negative interest rates on additional foreign currency balances.

Footnotes

\* Noncovered under the cost basis rules as defined below.

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L.110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered," under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

## Portfolio Holdings (continued)

Reporting requirements generally will be phased in over a three-year period, as follows:

- Stock in a corporation acquired on or after January 1, 2011
- Mutual funds and dividend reinvestment plan (DRP) shares acquired on or after January 1, 2012
- Options and any Debt Instruments that provide a simple fixed payment schedule for which a yield to maturity can be easily determined acquired on or after January 1, 2014.

## Messages

Although a money market mutual fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in a money market mutual fund. Shares of a money market mutual fund or the balance of a bank deposit product held in your brokerage account may be liquidated upon request with the proceeds credited to your brokerage account. Please see the money market mutual fund's prospectus or the bank deposit product's disclosure document or contact your advisor for additional information. Pursuant to SEC Rule 10b-10(b)(1) confirmations are not sent for purchases into money market mutual funds processed on the sweep platform.

Please be advised that Deutsche Investment Management Americas Inc. will be liquidating the NY Tax Free Money Fund and Tax Free Money Fund Investment (the "NY Tax Free Funds") and the Tax-Exempt California Money Market Fund on or about April 8, 2016 and as such the NY Tax Free Funds and the Tax-Exempt California Money Market Fund will no longer be available as money market funds in the DBSI cash sweep program (the "Sweep Program").

What this means for you:

If you are currently invested in the NY Tax Free Funds or the Tax-Exempt California Money Market Fund, your entire position in the applicable NY Tax Free Funds and Tax-Exempt California Money Market Fund will be automatically redeemed and the proceeds will remain as cash balances in your brokerage account. For more information about your available cash sweep options and to select a new cash sweep option you must contact your Client Advisor.

If you are not currently invested in the NY Tax Free Funds or the Tax-Exempt California Money Market Fund, then this change will not affect the existing sweep for your cash balances and you do not need to contact your Client Advisor.

For more information on the cash sweep options available to you in the Sweep Program, please visit our website at <http://www.wealth.deutscheawm.com/americas/en/CashSweepOptions.html> and click on "Cash Sweep Options".

## Important Information and Disclosures

### Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

### Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

### Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

### Options

Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.

### Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

### Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion

### For Your Information

The European Central Bank (the "ECB") and other credit institutions introduced "negative interest rates". Negative interest expense may be charged to your account if you have a deposit of foreign currency. The interest will be reported on your Forms 1099 and/or 1042 S. These rates are subject to change in response to market changes, and we may, in the future and based on our normal interest rate setting arrangements, begin to charge negative interest rates on additional foreign currency balances.

\* Noncovered under the cost basis rules as defined below.

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L.110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered," under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Shares of a money market mutual fund or the balance of a bank deposit product held in your brokerage account may be liquidated upon request with the proceeds credited to your brokerage account. Please see the money market mutual fund's prospectus or the bank deposit product's disclosure document or contact your advisor for additional information. Pursuant to SEC Rule 10b-10(b)(1) confirmations are not sent for purchases into money market mutual funds processed on the sweep platform.

## Important Information and Disclosures

### Pricing

This section includes the net market value of the securities in your account on a settlement date basis, including short positions, at the close of the statement period. The market prices, unless otherwise noted, have been obtained from independent vendor services, which we believe to be reliable. Market prices do not constitute a bid or an offer, and may differ from the actual sale price. Securities for which a price is not available are marked "N/A" and are omitted from the Total.

THE AS OF PRICE DATE ONLY APPEARS WHEN THE PRICE DATE DOES NOT EQUAL THE STATEMENT DATE.

The pricing of securities on this statement may vary from their actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Cash shown in this statement may not necessarily be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

### Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

### Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

### Options

Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.

### Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

### Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion

### For Your Information

The European Central Bank (the "ECB") and other credit institutions introduced "negative interest rates". Negative interest expense may be charged to your account if you have a deposit of foreign currency. The interest will be reported on your Forms 1099 and/or 1042 S. These rates are subject to change in response to market changes, and we may, in the future and based on our normal interest rate setting arrangements, begin to charge negative interest rates on additional foreign currency balances.

Footnotes

\* Noncovered under the cost basis rules as defined below.

Securities acquired before 2011 or in retirement accounts are generally not subject to the new cost basis reporting rules set forth in the Internal Revenue Code of 1986, as amended ("IRC") (incorporating amendments enacted by P.L. 110-343, the Emergency Economic Stabilization Act of 2008) and are, therefore, considered "noncovered," under the new cost basis reporting rules, and marked or denoted as such. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as non-retirement, US taxpayers securities which have been acquired on or after their "applicable date(s)" at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Statement Period: 01/01/2016 - 01/31/2016

## Portfolio Holdings (continued)

- Mutual funds and dividend reinvestment plan (DRP) shares acquired on or after January 1, 2012
- Options and any Debt Instruments that provide a simple fixed payment schedule for which a yield to maturity can be easily determined acquired on or after January 1, 2014.

## Important Information and Disclosures *(continued)*

### Pricing *(continued)*

be available for investment due to unsettled transactions against your account(s). Prices for marketable securities are received from various pricing services thought to be reliable; however, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, estimated prices may be used. When the updated price is received from the price provider, the updated price will be used in the release of the current month's statement. Prior statements will not be revised. You should always request a current valuation for your securities prior to making a financial decision or placing an order.

Deutsche Bank proprietary investments and miscellaneous assets held by Discretionary Accounts, Trust Accounts and Custody Accounts include several categories of securities. Miscellaneous foreign assets are priced via third party sources believed to be reliable.

For certain securities, including thinly-traded securities, debt securities in default, securities that do not have a valid pricing source, and certain third-party structured products, the last available pricing will be listed. If the last price available for such securities is unchanged for a period of time deemed appropriate for that asset, the current price will purge and N/A will be placed in the price field in the statement. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices.

### Estimated Annual Figures

The estimated annual income (EAI) and estimated annual yield (EAY) figures are estimates and for informational purposes only. These figures are not considered to be a forecast or guarantee of future results. These figures are computed using information from providers believed to be reliable; however, no assurance can be made as to the accuracy. Since interest and dividend rates are subject to change at any time, and may be affected by current and future economic, political, and business conditions, they should not be relied on for making investment, trading, or tax decisions. These figures assume that the position quantities, interest and dividend rates, and prices remain constant. A capital gain or return of principal may be included in the figures for certain securities, thereby overstating them. Refer to [www.pershing.com/business\\_continuity.html](http://www.pershing.com/business_continuity.html) for specific details as to formulas used to calculate the figures. Accrued interest represents interest earned but not yet received.

### Reinvestment

The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your statement may have been reinvested. You will not receive confirmation of these reinvestments. Upon written request to your financial institution, information pertaining to these transactions, including the time of execution and the name of the person from whom your security was purchased, may be obtained. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow.

### Options

Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.

### Proxy Vote

Securities not fully paid for in your margin account may be lent by Pershing to itself or others in accordance with the terms outlined in the Margin Agreement. The right to vote your shares held on margin may be reduced by the amount of shares on loan. The Proxy Voting Instruction Form sent to you may reflect a smaller number of shares entitled to vote than the number of shares in your margin account.

### Foreign Currency Transactions

Pershing may execute foreign currency transactions as principal for your account. Pershing may automatically convert foreign currency to or from U.S. dollars for dividends and similar corporate action transactions unless you instruct your financial organization otherwise. Pershing's currency conversion rate will not exceed the highest interbank conversion rate identified from customary banking sources on the conversion date or the prior business day, increased by up to 1%, unless a particular rate is required by applicable law. Your financial organization may also increase the currency conversion rate. This conversion rate may differ from rates in effect on the date you executed a transaction, incurred a charge, or received a credit. Transactions converted by agents (such as depositories) will be billed at the rates such agents use.

### Important Arbitration Disclosures

- All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.
- Arbitration awards are generally final and binding; a party's ability to have a court reverse or modify an arbitration award is very limited.
- The ability of the parties to obtain documents, witness statements and other discovery is generally more limited in arbitration than in court proceedings.
- The arbitrators do not have to explain the reason(s) for their award, unless, in an eligible case, a joint request for an explained decision has been submitted by all parties to the panel at least 20 days prior to the first scheduled hearing date.
- The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.
- The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.
- The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

### Important Arbitration Agreement

Any controversy between you and Pershing LLC shall be submitted to arbitration before the Financial Industry Regulatory Authority. No person shall bring a putative or certified class action to arbitration, nor seek to enforce any predispute arbitration agreement against any person who has initiated in court a putative class action, who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until; (I) the class certification is denied; (II) the class is decertified; or (III) the client is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein. The laws of the State of New York govern.
